OFFICE OF PETITIONS

Applicant: Riess, et al.
Appl. No.: 09/899,843
Filing Date: July 9, 2001
Title: FAST, BLIND EQUALIZATION TECHNIQUES USING RELIABLE SYMBOLS
Attorney Docket No.: 11927/46101
Pub. No.: US 2002/0080896 A1
Pub. Date: June 27, 2002

Patent application publication No. US 2002/0080896 A1 published on June 27, 2002 without a substantial portion of the text that was originally filed. Applicant had filed a request for redacted publication in compliance with 37 CFR 1.217, and the Office should have published a redacted version of the application. The publication excluded the redacted text, however, it also omitted many mathematical formulas and claim 9.

This is a decision to *sua sponte* issue a corrected patent application publication, omitting the redacted text, but including the remainder of the originally filed application.

The corrected patent application publication will be published in due course.

The application is being forwarded to the Office of PreGrant Publication (PG-PUB) in Crystal Park 3-905 for further processing.

Inquires concerning this communication should be directed to Mark Polutta at (703) 308-8122 (voice) or (703) 746-3465 (facsimile).
